This hands-on manual from Leigh McCullough and associates teaches the nuts and bolts of practicing short-term dynamic psychotherapy, the research-supported model first presented in Changing Character, McCullough's foundational text. Reflecting the ongoing evolution of the approach, the manual emphasizes "affect phobia," or conflict about feelings. It shows how such proven behavioral techniques as systemic desensitization can be applied effectively within a psychodynamic framework, and offers clear guidelines for when and how to intervene. Demonstrated are procedures for assessing patients, formulating core conflicts, and restructuring defenses, affects, and relationship to the self and others. In an easy-to-use, large-size format, the book features a wealth of case examples and write-in exercises for building key clinical skills. The companion website (www.affectphobiatherapy.com) offers useful supplemental resources, including Psychotherapy Assessment Checklist (PAC) forms and instructions.

The creators of the New York Times best-selling Encyclopedia Prehistorica series offer a mythic look at the mysteries of the past with an entire pantheon of remarkable pop-ups. (Age 5 and up) For all of recorded history, humans have sought to understand Earth's mysteries in the realm of the divine -- and aspired to conduct themselves as heroes. Only gods, of course, could push the sun across the sky,forge entire continents, and impel mountains to touch the clouds. In this stunning volume, the incomparable team of Matthew Reinhart and Robert Sabuda take us to Ra-Atum's land in Ancient Egypt; above the Grecian clouds to Zeus's Mount Olympus; up to Norse god Odin's frozen north; to the Far East, where the Jade Emperor sits in the heavens; into the wilds of Oceania, where Pele's volcanic rage simmers below the earth; and to many more lands and times, all rich with sacred myths and legends.

Although Tibetan Buddhism continues to grow in popularity, the crucial relationship between teacher and student remains largely misunderstood. Dangerous Friend offers an in-depth exploration of this mysterious and complex bond, a relationship of paramount importance in Tibetan Buddhist practice. According to Tibetan Buddhist tradition, the student must have complete trust in the teacher (the "dangerous friend") if he or she is to achieve any understanding. It is the teacher's responsibility to uphold the integrity of the tradition, the basis of which is compassion for all beings, by transmitting it properly to an appropriate student. Likewise, it is the student's responsibility to meet the challenge of carrying on the lineage of teachings. By entering such a relationship, both teacher and student accept the burden of protecting those teachings by understanding them completely and correctly, by practicing them fully and faultlessly, and by transmitting them without omission. Dangerous Friend includes discussions of the following topics: • Meeting and recognizing an appropriate teacher. • Understanding the gravity of entering the teacher-student relationship. • Shifting one's approach from spiritual materialism to genuine Buddhist practice. • Accepting the challenge of being truly kind, honest, and courageous.
