This 1999 reference grammar, written for advanced students of French, their teachers, and others who want a better understanding of the French language, combines the best of modern and traditional approaches. Its objective is not only practical mastery of the language, but familiarity with its structure. Taking into account modern linguistic research, Advanced French Grammar approaches the French language primarily through the study of syntactic structures, but without excessive emphasis on formalism. It provides a generous number of examples, based on the author's own experience of teaching French to English-speakers, to help the student to understand the different meanings of apparently similar syntactic alternatives. The norms of 'correct expression' are given together with current usage and deviations, and appendixes provide information on the 1990 spelling reforms and on numbers. A substantial index of French and English words and of topics provides easy access to the text itself.

“When you’re in the middle of the adventure, you just have to live it. When you’re on an expedition, you put your head down and battle through. Storytelling happens after the finish line. . . now that time has come [and] Julia can tell her story. The full story.” —from the foreword by Bear Grylls *** An incredible account of one woman’s record-breaking row across the Atlantic Thirty-two-year-old Julia Immonen and four other women take on a challenge completed by fewer people than have climbed Mount Everest or gone into space: row three thousand miles, unaided, from the Canary Islands to Barbados. Row for Freedom chronicles that dramatic journey, detailing the grueling, peril-filled crossing, which broke two world records, as it weaves together Julia’s search for hope and purpose

against a background of relationships scarred by violence. As Julia's physical and emotional treks unfold, you also learn about the plight of the thirty million victims of the modern-day slave trade that serves as the motivation for her row. Be inspired by Julia's self-discovery and her team's triumph in one of the most formidable physical quests ever undertaken.

This book offers a detailed engagement between the French philosopher Jacques Derrida and the contemporary Irish author Paul Howard, aka Ross O'Carroll-Kelly. The book offers insightful analyses of Derrida's deconstructive theory with all its concepts, non-concepts and neologisms, thus showing how they can be used in order to provide a critique of the socio-linguistic realm of Howard's fictional series. Through his work, Howard set in ink a depiction of Ireland, and specifically Dublin, throughout the Celtic Tiger era and its aftermath. The book promotes a dialogue between Derrida and Howard in order to cultivate a succinct and accessible overview of critical theory.

Luca Missoni is an Italian photographer passionate of astronomy. The Moon has always been at the center of his artistic research. For more than twenty years he has been realizing a photographic project which explores the Moon focusing on the tension between reality and imagination. In his childhood he started to observe the Moon with a telescope, collecting maps and books. With the myth of the Moon increasing its charm since the Sixties, with its explorations, Missoni has been more and more involved up to pursue a project for a personal Atlas of the heavenly body. The book is structured in two main sections: a first part with an obsessive and rigorous representation of the Moon in all its phases; a second part with its interpretation in a continuous testing of colors and composition of different phases. The result is a personal trip around the Moon with a representation of the visible side of our satellite, in a continuous tension towards the shadowed and hidden part.

From Sophia Amoruso, the New York Times-bestselling author of #GIRLBOSS, a lushly illustrated embodiment of the collective spirit of the Nasty Gal brand, Sophia's own personal brand, and girlbosses everywhere, with a foreword by Courtney Love. Warning: this is not a style book. It's not about how to mix prints--it's about how to leave yours on everything you touch. Highly graphic and visual, filled with illustrations, photos and short essays, Nasty Galaxy is part scrapbook, part inspo-journey, with moments of frivolity scattered throughout. Tactical and entertaining, envelope-pushing and conventional, surprising and refreshingly straightforward, Nasty Galaxy is a dive into Sophia's philosophies on work, relationships, balance, friendships, and more. It is a celebration of her roots in vintage clothing, punk attitude, fringe characters, and don't-give-a-fuck thought leadership. Nasty Galaxy is Amoruso's newest life bible, approaching style, music, philosophy, and advice in the same way #GIRLBOSS approached business--unconventionally. Oversized and in full color, this is the newest, coolest, must-have accessory.

Master grammar with the bestselling workbook for learners of French Practice Makes Perfect: Complete French Grammar is the go-to guide for clear, precise explanations of all aspects of French grammar: from the present tense of regular verbs to direct object pronouns, from the differences between savoir and connaître to the use of pronouns y and en.
