In a certain town in Persia there lived, once upon a time, two brothers. Their names were Cassim and Ali Baba, and when their father died all he had was divided between them, so they both started life with the same fortune. But before very long Cassim married a rich wife, and Ali Baba married a poor one; so while Cassim lived like a lord and did nothing, Ali Baba had to work hard for his living, Every day he went to cut wood in the forest, loaded his three horses with it, and then brought it back to sell in the town...

Tahir Shah's The Caliph's House, describing his first year in Casablanca, was hailed by critics and compared to such travel classics as A Year in Provence and Under the Tuscan Sun. Now Shah takes us deeper into the heart of this exotic and magical land to uncover mysteries that have been hidden from Western eyes for centuries... In this entertaining and penetrating book, Tahir sets out on a bold new journey across Morocco that becomes an adventure worthy of the mythical Arabian Nights. As he wends his way through the labyrinthine medinas of Fez and Marrakesh, traverses the Sahara sands, and tastes the hospitality of ordinary Moroccans, Tahir collects a dazzling treasury of traditional stories, gleaned from the heritage of A Thousand and One Nights. The tales, recounted by a vivid cast of characters, reveal fragments of wisdom and an oriental way of thinking that is both enthralling and fresh. A link in the chain of scholars and teachers who have passed these stories down for centuries like a baton in a relay race, Shah reaches layers of culture that most visitors hardly realize exist, and eventually discovers the story living in his own heart. Along the way he describes the colors, characters, and the passion of Morocco, and comes to understand why it is such an enchanting land. From master masons who labor only at night to Sufi wise men who write for soap operas, and Tuareg guides afflicted by reality TV, In Arabian Nights takes us on an unforgettable journey, shining a light on facets of a society that are normally left in darkness.
