Prof. Giuseppe Joseph Calligaris, an italian medical doctor who worked in the first half of the 19th century, had discovered that certain lines and points on the skin were related to the conscious and subconscious portions of the mind, and even to the enhancing of paranormal abilities. For over thirty years, Calligaris examined thousands of individuals, published about twenty books and discovered that the geometric system on the human skin could be stimulated in everybody to enhance clairvoyance, clairaudience, and precognition and retrocognition. He believed that our brain just may be a concave mirror for the Universal Consciousness. For his new research Calligaris was 'dumped' by the academic community after he demonstrated in several tests before professors that anybody can become capable of identifying objects on the other side of a wall, by pressing a specific point on the skin for only some minutes. Today the books of Calligaris are very rare...the majority of his materials are no longer available. This is the first book in english language, that helps you rediscover the potential which is hidden in all of us. Calligaris has proven, that the truth is just as near as our skin.

"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olivia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

Brutally handsome cop Doug Black is determined to find the birth family who left him with nothing but a terrifying inheritance: the ability to change into a savage golden cougar. His search leads him to a woman as dauntless and exotic as her name. Firebird Wilder is bitterly familiar with supernatural gifts, and flees on discovering his secret, leaving Doug alone once more. But no one can escape a wild cougar on the hunt. When he finds her, they both must decide which is more powerful—the love that binds them together...or the secrets that threaten to tear them apart.
