Die Beiträge dieses Bandes gehen auf eine internationale Tagung zurück, die 2017 in Manchester stattgefunden hat. Sie untersuchen die Darstellung von Geschichte in der mittelalterlichen deutschen Literatur auf der Basis von aktuellen erzähltheoretischen Forschungsansätzen. Dabei wird ein breites Spektrum an Texten, Gattungen und Diskursen in den Blick genommen; als Angelpunkt für zahlreiche relevante Fragestellungen erweist sich die im 12. Jahrhundert entstandene ›Kaiserchronik‹. Geleitet von der Erkenntnis, dass Vergangenheit erst im Erzählen zu Geschichte wird, analysieren die Beiträge einschlägige narrative Strategien.

How did East and West Germany and Japan reconstitute national identity after World War II? Did all three experience parallel reactions to national trauma and reconstruction? History education shaped how these nations reconceived their national identities. Because the content of history education was controlled by different actors, history education materials framed national identity in very different ways. In Japan, where the curriculum was controlled by bureaucrats bent on maintaining their purported neutrality, materials focused on the empirical building blocks of history (who? where? what?) at the expense of discussions of historical responsibility. In East Germany, where party cadres controlled the curriculum, students were taught that World War II was a capitalist aberration. In (West) Germany, where teachers controlled the curriculum, students were taught the lessons of shame and then regeneration after historians turned away from grand national narratives. This book shows that constructions of national identity are not easily malleable on the basis of moral and political concerns only, but that they are subject to institutional constraints and opportunities. In an age when post-conflict reconstruction and reconciliation has become a major focus of international policies, the analysis offers important implications for the parallel revision of portrayals of national history and the institutional reconstruction of policy-making regimes.

Essays in this volume seek to clarify the meaning of tragedy and the tragic in its many German contexts, art forms, and disciplines, from literature and philosophy to music, painting, and history.

There are certain parallels between the operations Vladimir Putin initiated in the wake of the Ukraine crisis of 2014 and the approach Stalin took in the region during the Second World War. Stalin's ruthless use of scorched earth tactics, the deliberate provocation of reprisals of the occupiers against the civilian population, the destruction of their own villages, the chaotic collection of taxes in kind from the population, accompanied by everyday looting, benders, fornication and violence, fratricidal internal conflicts, the use of doping, the operational use of bacteriological weapons, and even cannibalism -- all this was not a random price for the massive bloodshed and no spontaneous response of the population to the brutality of the German occupation in the 1940s. These were, as Alexander Gogun shows in his historiographical investigation, planned or consciously accepted phenomena and peculiarities of Stalin's warfare tactics. A book that makes an important contribution to the historical context of the current crisis in Ukraine. Es finden sich Parallelen zwischen den von Wladimir Putin im Zuge der Ukraine-Krise 2014 initiierten Operationen in der Ukraine und dem dortigen Vorgehen Stalins während des zweiten Weltkriegs. Stalins rücksichtslose Anwendung der Taktik der verbrannten Erde, das absichtliche Provozieren von Repressalien der Besatzer gegen die Zivilisten, die Vernichtung eigener Dörfer, die chaotische Eintreibung von Naturalsteuern von der Bevölkerung, begleitet von alltäglichen Plünderungen, Besäufnissen, Unzucht und Gewalt, brudermörderische innere Konflikte, die Benutzung von Doping, der operative Einsatz bakteriologischer Waffen und sogar Kannibalismus -- all das war in den 1940er Jahren kein zufälliger Preis für das massenhafte Blutvergießen und auch keine spontane Antwort des Volkes auf die Brutalität der deutschen Besatzungsherrschaft. Dies waren, wie Alexander Gogun in seiner vorliegenden historiographischen Untersuchung aufzeigt, geplante oder bewusst in Kauf genommene Erscheinungen und Besonderheiten der Kriegsführung Stalins. Ein Buch, das einen wichtigen Beitrag zur historischen Einordnung der aktuellen Ukraine-Krise leistet.

This monograph deals with the main problems of the Eleventh Book of the Odyssey (the Nekyia) in the light of recent research. The journey to the underworld is not only troublesome in its composition but also important for its place in the poem, perhaps the most important of the hero's adventures. After a brief introduction, which surveys the present state of research and outlines methodology, the book examines in four chapters: 1. The question of the sources (borrowings, influences etc.) from the Epic of Gilgamesh to the Greek catabaseis (those of Heracles, Orpheus, Theseus and Peirithous) and cult practices at the Oracles of the Dead (the Thesprotian Oracle and that of Trophonius in Lebadeia). 2. The relation of our Nekyia to the poem and especially to the apologoi, as it is part of a larger composition, and its themes (journey to the land of the dead, catabasis, nekyomanteia). 3. The problematic parts of the Book and the question of their authenticity,

Catalogue of Heroines, Intermezzo and Review of Hades. 4. The concepts of the Afterlife with the two contrasting views about the fate of psyche. There follows: a conclusion, which gives a summary of the results reached in the discussion of individual topics, select bibliography and the indexes (a Greek index, an index of passages and a general index).
