Biodesign: Nature + Science + Creativity by William Myers is a book published by the Museum of Modern Art in New York and Thames & Hudson worldwide. It profiles recent design projects that integrate biology in an original way, often to achieve better ecological performance.

~~Bioesign : Nature + Science + Creativity~~

The idea that nature might be an honored houseguest and not just something that slithers in under the refrigerator is also behind "Bio Design: Nature, Science, Creativity," a book published last month by the Museum of Modern Art. Written by William Myers, a New York-based writer and teacher,

~~BIODESIGN : Nature + Science + Creativity~~

Bioluminescent algae, symbiotic aquariums, self-healing concrete, clavicle wind instruments and structures made from living trees – biology applied outside the lab has never been so intriguing, or so beautiful. Bio Design examines the thrilling advances in the field, showcasing some seventy projects (concepts, prototypes and completed designs) that cover a range of fields – from architecture and industrial design to fashion and medicine.

~~Bio Design — Thames & Hudson~~

Bio Design: Nature] Science + Creativity. For centuries, designers and artists have looked to nature for inspiration and materials, but only recently have they developed the ability to alter and incorporate living organisms or tissues into their work.

~~It's Alive! Bio Design: Nature + Science + Creativity ...~~

Biodesign is the next step beyond biology-inspired approaches to design and fabrication. Unlike biomimicry, Cradle to Cradle or the popular but frustratingly vague "green design," biodesign refers specifically to the incorporation of living organisms.

~~BIO DESIGN: nature science creativity revised and ...~~

Bio Design surveys recent design and art projects that harness living materials and processes, presenting bio-integrated approaches to achieving sustainability, innovations enabled by biotechnology, and provocative experiments that deliberately illustrate the dangers and opportunities in manipulating life for human ends. As the first publication to focus on this new phenomenon and closely examine how it fits into the history of architecture, art and industrial design, this volume surveys ...
