# File Type PDF

## Breathing And

the answers. The similarity between breathing and cellular respiration is that breathing provides the oxygen molecules required for cellular respiration to take place. When you breathe in,

# File Type PDF Breathing And

Cellular  
Respiration  
Answer

the oxygen needed for respiration is provided. When you breathe out, carbon dioxide produced by respiration leaves the body.

---

How Are  
Breathing and  
Cellular

# File Type PDF Breathing And

Cellular Respiration

Similar? Get ...

Respiration can occur either in the presence of oxygen or in its absence.

Respiration in the presence of oxygen is aerobic respiration, whereas the respiration in

# File Type PDF Breathing And

the absence of oxygen is anaerobic. The reactions involved in cellular respiration are catabolic reactions which break down complex compounds into simple ones.
