Chapter 6 The Muscular System Because flexing muscles look like mice scurrying beneath the skin, some scientist long ago dubbed them muscles, from the Latin word mus meaning "little mouse." Indeed, the rippling muscles of professional boxers or weight lifters is often the first thing that comes to mind when one hears the word muscle.

~~Chapter 6 The Muscular System Packet Answers | calendar~~

The Muscular System • Muscles are responsible for all movement of the body • There are three basic types of muscle – Skeletal – Cardiac – Smooth 4. Info About Muscles • Only body tissue able to contract • create movement by flexing and extending joints • Body energy converters (many muscle cells contain many mitochondria)
