Hold stalk button in as you turn on the ignition. You will get a dial full of lights. Scroll through with the stalk end button (needles will move etc) until you see -tP- or something like that on your display. Once you have that, hold trip reset button in, turn off the ignition and then back on. Fixed mine.

2003 Clio 172 Oct 30, 2018 #1 For the last week or so with these cold mornings, the trip computer/mpg, etc have been resetting themselves to zero most times that I start the car. After doing some research on here I read that it's likely to be the battery on its way out causing it, however I replaced the battery in May, so it is only a few ...
