From New York Times bestselling author Lauren Oliver comes a captivating, thrilling novel of fear, friendship, courage, and hope that will leave readers gasping for air. Now a television series on Prime Video, starring Olivia Welch, Mike Faist, Jessica Sula, Enrique Murciano, Camron Jones, and Ray Nicholson! E. Lockhart, author of *We Were Liars*, calls *Panic* "a thrill a minute." Kirkus says: "Will have readers up until the wee hours," School Library Journal raves: "Fast-paced and captivating." *Panic* began as so many things do in Carp, a poor town of twelve thousand people in the middle of nowhere: because it was summer, and there was nothing else to do. Heather never thought she would compete in panic, a legendary game played by graduating seniors. She'd never thought of herself as fearless, the kind of person who would fight to stand out. But when she finds something, and someone, to fight for, she will discover that she is braver than she ever thought. Dodge has never been afraid of panic. His secret will fuel him, and get him all the way through the game; he's sure of it. But what he doesn't know is that he's not the only one with a secret. Everyone has something to play for. For Heather and Dodge, the game will bring new alliances, unexpected revelations, and the possibility of first love for each of them--and the knowledge that sometimes the very things we fear are those we need the most. Read the book that inspired the series, which the New York Times described as "Reminiscent of 'The Hunger Games' but grounded in the real world."

SOON TO BE A HULU SERIES • “An astonishing comic writer.”—Neil Gaiman Nominated as one of America’s best-loved novels by PBS’s *The Great American Read* It’s an ordinary Thursday morning for Arthur Dent . . . until his house gets demolished. The Earth follows shortly after to make way for a new hyperspace express route, and Arthur’s best friend has just announced that he’s an alien. After that, things get much, much worse. With just a towel, a small yellow fish, and a book, Arthur has to navigate through a very hostile universe in the company of a gang of unreliable aliens. Luckily the fish is quite good at languages. And the book is *The Hitchhiker’s Guide to the Galaxy* . . . which helpfully has the words DON’T PANIC inscribed in large, friendly letters on its cover. Douglas Adams’s mega-selling pop-culture classic sends logic into orbit, plays havoc with both time and physics, offers up pithy commentary on such things as ballpoint pens, potted plants, and digital watches . . . and, most important, reveals the ultimate answer to life, the universe, and everything. Now, if you could only figure out the question. . . .

One autumn morning, Jia Jia walks into the bathroom of her lavish Beijing apartment to find her husband dead. One minute she was breakfasting with him and packing for an upcoming trip, the next, she finds him motionless in their half-full bathtub. Like something out of a dream, next to the tub Jia Jia discovers a pencil sketch of a strange watery figure, an image that swims into Jia Jia's mind and won't leave. The mysterious drawing launches Jia Jia on an odyssey across contemporary Beijing, from its high-rise apartments to its hidden bars, as her path crosses some of the people who call the city home, including a jaded bartender who may be able to offer her the kind of love she had long thought impossible. Unencumbered by a marriage that had constrained her, Jia Jia travels into her past to try to discover things that were left unsaid by the people closest to her. Her journey takes her to the high plains of Tibet, and even to a shadowy, watery otherworld, a place she both yearns and fears to go. Exquisitely attuned to the complexities of human connection, and an atmospheric and cinematic evocation of middle-class urban China, *An Yu's Braised Pork* explores the intimate strangeness of grief, the indelible mysteries of unseen worlds, and the energizing self-discovery of a newly empowered young woman.
