MyProgrammingLab C How to Program is a comprehensive introduction to programming in C. Like other texts of the Deitels' How to Program series, the book serves as a detailed beginner source of information for college students looking to embark on a career in coding, or instructors and software-development professionals seeking to learn how to program with C. The Eighth Edition continues the tradition of the signature Deitel "Live Code" approach--presenting concepts in the context of full-working programs rather than incomplete snips of code. This gives students a chance to run each program as they study it and see how their learning applies to real world programming scenarios. Personalize Learning with MyProgrammingLab This package includes MyProgrammingLab, an online homework, tutorial, and

assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. MyProgrammingLab should only be purchased when required by an instructor. Please be sure you have the correct ISBN and Course ID. Instructors, contact your Pearson representative for more information.

This inspiring collection of compelling and characterful interiors will have city and country dwellers alike dreaming of carving out a personal haven far beyond the big city. Through two hundred newly commissioned photographs and engaging profiles of twelve unique, personal, and creative interiors on both sides of the Hudson, Upstate features a variety of spaces--from tranquil minimalist retreats to exuberant small-town residences. Among them are a farmhouse of

globetrotting food photographers, a lavender-hued Victorian brimming with eclectic curios, a striking cottage with modern furnishings and elegant Georgian bones, and the country-house-on-acid of an artist and art director, complete with giant mushroom side tables and permanently installed party streamers. Shared by these distinctive spaces is a common approach to decoration that centers on collections gradually accumulated, delights in the handmade, embraces the beauty in imperfection, and values comfort and character above all.

For more than 20 years, Sydney Seafood School has been teaching us how to prepare and cook the wonderful array of

seafood found in our oceans and rivers. Now, for the first time, the School shares its wealth of tips and techniques, along with more than 80 outstanding recipes from Australia's leading chefs. Try your hand at Pete Evans' garlic prawns, David Thompson's grilled barramundi curry or Alex Herbert's fish'n'chips. Or treat your friends and family to Tetsuya's crudo of leatherjacket, Neil Perry's bar rock cod tagine or Frank Camorra's Galician-style octopus. There's also expert advice on choosing and storing seafood, plus step-by-step photos of essential techniques, including filleting and butterflying fish, shucking oysters, cleaning squid and octopus, and preparing crabs, prawns and bugs. With beautiful photos of all the recipes to help you decide what to make, and illustrations of the various species so you know

Booming economic development in Asia, particularly of the leading manufacturing industries which produce flat-panel displays, communication-devices, computers and other products in the micro/nano field has stimulated an intense research effort in universities, development-oriented institutions and industrial corporations. Such knowledge-based industries have been enjoying an immense growth-potential and thus there is an urgent need for a solid forum for the exchange of various scientific, technical and management aspects ranging across the entire spectrum of society.

"In this book, nationally known headache specialists Drs Lawrence Newman and Morris Levin have simulated the "curbside consultation" in a representative set of 33 "mini-cases" of headache and facial pain. The key questions in each are addressed, much as a consultant would do over the phone or in the hallway. This volume is divided into three sections that cover the typical ground for head/face pain consultation: (1) Diagnostic Questions, (2) Treatment Considerations, and (3) Prognostic, Social and Legal Issues.

Recommendations are based on the most current evidence available. Diagnostic thinking is presented along the lines of the International Classification of Headache Disorders, second edition (ICHD-II). A list of key clinical points appears at the end of each case discussion, followed by a list of suggested articles or chapters for those interested in doing further reading on the subject. Tables are provided for quick reference in most chapters."--BOOK JACKET.
