The global architectural style has also come to influence the architectural practice. As architect firms cater to international markets, they expand to profit from far away markets, even though the majority are based in the Western countries. They base their designs on a general framework of globalization and post modernism.

Architecture and Globalization Ned Cramer considers the ramifications of the profession's entrenchment in a global elite, and the moment he began to realize his own role in it.

~~Architecture and Globalization | Architect Magazine~~

Globalization has a daunting influence over almost all aspects of public and private life (Kiggundu 2002). Consequently, it is not surprising that it has also proliferated to architectural practices as well. To understand the influence of globalization on architecture, one needs to first understand the influence of culture on architecture.

~~Impact of Globalisation on Architecture — Course Scholar~~

Robert Adam's *The Globalisation of Modern Architecture* takes a compelling and broad-ranging look at the output of the architectural world, writes James Pallister. It may seem an unlikely choice of subject for an architect known for being a practitioner of – say it sotto voce – 'traditional architecture', but Robert Adam has completed an impressively comprehensive and compelling survey of contemporary social and political theory.

~~The Globalisation of Modern Architecture by Robert Adam~~

This thesis is devoted to answering the question: in what way does the impact of globalisation affect the role of architecture, and how should it be interpreted ethically? It argues that the ethical evaluation of the role of architecture should be linked to architecture's natural ethical ability to form a relationship with a culture.
