Teeth grinding and jaw clenching (also called bruxism) is often related to stress or anxiety. It does not always cause symptoms, but some people get facial pain and headaches, and it can wear down your teeth over time. Most people who grind their teeth and clench their jaw are not aware they're doing it.

Teeth grinding (bruxism) - NHS

Grinding It Out accounts the rise of McDonald and although the book was written in 1977 the author discusses many essential management principles which are still relevant in a business operation. Grinding isn ' t very satisfying. It is hard to stand up in front of everyone and say “ we are going to fix things around here bit by bit with a lot of hard work. ” Big flashy moves are an easier sell most of the time. But they don ' t work nearly as well and are prone to complete and abject failure.
