By the time I finished #2, I was well hooked, and bought books 3 and 4 at the same time. Although Book 4 picks up right where Book 3 left off, I noticed it definitely had a different feel.

The Mongoliad: Book One (Foreworld, #1) by Neal Stephenson

An extremely interesting story set in 1241AD, which could stand alone but is much better for having been read after the three previous books of the Mongoliad Cycle. The characters have become old “friends, acquaintances and enemies” by the time one comes to book 4.

This is the fifth and last book of the Mongoliad series. As an individual story it is excellent, as the end of the series it leaves much to be desired. The strength of this series has been the portrayal of the 13th century world, the western martial arts and the transformation from the old religions to the new.
