A man-machine chart graphically represents the relationship between the manual work performed by one or more operators and one or more machines involved in a manufacturing process. Timer Pro's work balancing features allow you to quickly develop man-machine charts from any process as shown in the sample here.

Man Machine Charts – Timer Pro Professional
2. The worker and machine process chart (Man-machine chart) is used to study, analyze, and improve one workstation at a time. The chart shows the exact time relationship between the working cycle of the person and operating cycle of the machine. These facts can lead to utilization of both worker and machine time, and a better balance of the work cycle.
