position they have (and whether they have a job or not) - the same pay. Some contributors argue against equal pay for all, some for increased pay equality but not for total pay equality, and some argue for equal pay for all. There is no common conclusion in the book; instead, the book aims to encourage reflection as well as further debate on something that is often taken for granted, namely differentiated pay, by offering a set of various standpoints in the debate, backed-up with various kinds of arguments. Among bases for arguments that are put forward in the book, economy, practicability and ethics

Mountain bikes are among the strongest and most rugged bicycles that you can find. The reason that these bikes are so strong is that they are ridden on some very tough terrain, including steep inclines, dirt tracks, and pebbles. In most cases, mountain bikers do not ride on smoothly paved roads, rather they ride on hilly and uneven terrain that can be quite rough on a bicycle. Mountain bikers get a big thrill in riding on unpaved, rough terrain, even though this is hard on a bicycle. Grab a copy of this ebook today.

Jason blanched. The room was stone silent. A 10? Jason wasn't an expert on magnitudes, but he remembered from undergrad that a magnitude 10 quake would release as much energy as the entire United States consumes in a year, ten million times the energy released by the nuclear bomb test that destroyed the island of Bikini in 1946. It would be devastating. It would make 9/11 and Katrina look petty. It

would all but wreck the fourth largest economy in the world, California's, and it wouldn't be much help to the largest. It would also most likely take down the politician intently staring at him from across the room. Following a major terrorist attack and a Category Five hurricane swamping New Orleans, the third great catastrophe predicted by FEMA—a major earthquake in California—is signaling its arrival. The level of seismic unrest in California is increasing faster than ever before. Young scientist Jason Burns has a wild, high-risk plan to avert the natural disaster, but the

president withdraws his support at the last minute. The real action begins when a renegade federal officer appointed to take control of panic-stricken Los Angeles secretly enlists Burns and his friends to complete their plan. The unlikeliest of heroes, Burns's ultimate solution not only affects California but also has resounding implications for the entire world.
