Click here to see what we've got! We have just purchased a ' new ' Ferguson TEF 20 tractor, in need of restoration. The first job is to rebuild the engine. The serial number is 509,339 so that dates it at 1956, and means it was one of the latter tractors to be produced (total production was 517,651). The agent ' s plate is difficult to read, but appears to be Barclays Motors from Bury St Edmunds.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it ' s practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Vintage and Classic Tractor Restoration is a complete guide to the subject, looking at how to initially purchase a tractor, through private means or at auction, and then how to restore it back to its former glory, as it would have looked when it left the factory. It is even possible to preserve a classic tractor in its working condition, which has a unique appeal to some tractor collectors and in some ways is harder than a full restoration to undertake. Practical techniques have been amply illustrated throughout the book, ranging from the simple use of a lathe or milling machine to the making from scratch of various tools useful in restoration work. Rather than just replacing items such as carburettor, starter motor or dynamo, practical advice is given on how to test and rebuild these components back to full operation. Fifty-two practical picture spreads show techniques suitable for restorers of all levels of skill. Contents: Setting up the workshop and making specialist tools; Finding a tractor to restore; Engine and fuel; Electrical systems; Transmission and brakes; Wheels, tyres and steering; Hydraulics and the three-point linkage; Metalwork; Painting and finishing. Aimed at serious tractor enthusiasts and agricultural machinery engineers and fully illustrated wth 1100 colour photographs.
