The brand with the crown is recognized worldwide as an invaluable sports implement and luxury product. In little more than one hundred years, it has become one of the most successful and innovative watch brands on the planet. Rolex manufactures more than a half a million wristwatches per year while maintaining an outstanding reputation and near-perfect quality. From the beginning, the sponsorship of statesmen, movie stars, and athletes has driven its success, but the company has expanded to include more than just the rich and famous. The Rolex Oyster became the first watch to defy the elements when, in 1927, Mercedes Gleitze wore one while she swam the English Channel. In 1933, the company patented the first automatic winding mechanism. Learn more about this history and read updated reports written about new Rolex ideas and performance tests featured in the German watch magazine Armbanduhren (Wristwatch) from the past 15 years.

In 1956 Rolex presents one of its most successful and most popular watches ever: the Day-Date,. This model is one of the world's most famous Rolex watches; classic, beautiful, functional, useful and elegant. In 2008 a new chapter of this watch, the Day-date II (ø 41 mm) and in 2015 the new Day-Date 40. Known as "President's Watch", this Rolex Day-Date has characterized and influenced the history of horology with developments and innovations during the years. With high definition unreleased images, technical details, dials variants, history and updated price of every model, this book analyses every reference from 1956 until today. TOPICS In this book the authors examine calibers, dials, cases, bracelets and many more components of every model. We can read from an official Rolex document: « THE BIRTH OF THE "DATEJUST" AND THE "DAY-DATE" Not satisfied with having realized a selfwinding waterproof watch, we decided to dedicate ourselves to studying the calendar watch. This is how the "Datejust", which clearly indicates the date on the dial in a small aperture with a Cyclops lens which enlarges it so as to make it easier to read, was born. The next stage was the launch of the "Day-Date", a perfected model which also indicates, with letters, the days of the week. The day and the date automatically change every evening at midnight. » These are the words of Roger Federer, a living tennis legend, about his Day-Date II: "The reason I like my Day-Date so much is because it is a legendary watch, elegant but with a certain spirit, with a touch of modernity added to its stylish black dial".
