Orphaned heroine Ruth, apprenticed to a dressmaker, is seduced and  
then abandoned by wealthy young Henry Bellingham in this novel  
addressing the nature and sensibility of a "fallen woman."

"If you want to whip me, uncle, you may do it. I don't much mind." Put  
in this form, it was impossible to carry out his intentions; and so  
Mr. Benson told the lad he might go—that he would speak to him another  
time. Leonard went away, more subdued in spirit than if he had been  
whipped. Sally lingered for a moment. She stopped to add: "I think  
it's for them without sin to throw stones at a poor child, and cut up  
good laburnum branches to whip him. I only do as my betters do, when I  
call Leonard's mother Mrs. Denbigh." The moment she had said this she  
was sorry; it was an ungenerous advantage after the enemy had

acknowledged himself defeated. Mr. Benson dropped his head upon his hands, and hid his face, and sighed deeply.-Chapter XIX: "After Five Years" As interest in 19th-century English literature by women has been reinvigorated by a resurgence in popularity of the works of Jane Austen, readers are rediscovering a writer whose fiction, once widely beloved, fell by the wayside. British novelist ELIZABETH CLEGHORN GASKELL (1810-1865)-whose books were sometimes initially credited to, simply, "Mrs. Gaskell"-is now recognized as having created some of the most complex and progressive depictions of women in the literature of the age, and is today justly celebrated for her precocious use of the regional dialect and slang of England's industrial North. Ruth-Gaskell's third novel, first published in three volumes in 1853-is notable as one of the rare instances in the fiction of the era of a positive portrayal of unwed motherhood and for its thematic condemnation of the social stigma of illegitimacy. The tale of a young woman seduced and abandoned by her lover, then taken in and protected by a kindly minister and his sister, it is remarkably progressive for the period. Friend and literary companion to the likes of Charles Dickens and Charlotte Bront -the latter of whom Gaskell wrote an acclaimed 1857 biography-Gaskell is today being restored to her rightful place alongside them. This charming replica volume is an excellent opportunity for 21st-century fans of British literature to embrace one of its most unjustly forgotten authors.

In *Scenes of Sympathy*, Audrey Jaffe argues that representations of sympathy in Victorian fiction both reveal and unsettle Victorian ideologies of identity. Situating these representations within the context of Victorian visual culture, and offering new readings of key works by Charles Dickens, Elizabeth Gaskell, Ellen Wood, George Eliot, Oscar Wilde, and Arthur Conan Doyle, Jaffe shows how mid-Victorian spectacles of social difference construct the middle-class self, and

how late-Victorian narratives of feeling pave the way for the sympathetic affinities of contemporary identity politics. Perceptive and elegantly written, *Scenes of Sympathy* is the first detailed examination of the place of sympathy in Victorian fiction and ideology. It will redirect the current critical conversation about sympathy and refocus discussions of late-Victorian fictions of identity.
