Give your students a strong foundation in Java programming and the confidence to build successful mobile applications. ANDROID BOOT CAMP FOR DEVELOPERS USING JAVA: A GUIDE TO CREATING YOUR FIRST ANDROID APPS, by award-winning technology author Corinne Hoisington, helps prepare students with a thorough introduction to Java and the keys to creating effective mobile applications. Designed for a first-semester course in programming, the book can be used by students with no prior Java experience. The book offers an intensive, hands-on tutorial approach with clear, step-by-step instruction and numerous screen shots to guide readers efficiently through tasks with real-life app examples. Practical callouts and industry tips, exercises that extend learning beyond the book, and a variety of leveled cases and assignments help reinforce students ' understanding of programming logic and Java tools for Android. Effectively prepare student programmers to meet growing business demand for mobile apps with this engaging text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Topic wise Practice Questions

Streamline formative assessment for readers in just minutes a day With What Do I Teach Readers Tomorrow? Nonfiction, discover how to move your readers forward with in-class, actionable formative assessment. The authors provide a proven, 4-step process—lean in, listen to what readers say, look at what they write, and assess where they need to go next. Next-step resources for whole-class, small-group, and one-on-one instruction, include Reproducible Clipboard Notes pages for quick assessments More than 30 lessons to get you started Reading notebook entries and sample classroom conversations Online video clips of Renee and Gravity teaching and debriefing

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

This book is the fourth edition of a highly practical guide to the leading cases in European Competition Law. It explores the application of Article 101 TFEU, Article 102 TFEU and the European Merger Regulation, as well as the public and private enforcement of Competition Law. In addition, it reviews the intersection between Competition Law and Intellectual Property Rights and the application of Competition Law to State action. Each chapter outlines the relevant laws, regulations and guidelines for each topic. Within this framework, cases are reviewed in summary form, accompanied by analysis and commentary. "This book should be in the library of every competition law practitioner and academic. The summary of cases is first class. But what makes it really stand out is the quality of the commentary and the selection of the material which includes not only the most important European judgements and decision but also some of the leading cases from the US and European Member States." Ali Nikpay, Gibson, Dunn & Crutcher "The study of EU Competition law requires the analysis and understanding of a number of increasingly complex and lengthy European Commission and European Court decisions. Through the provision of case summaries, excerpts from the important passages and concise commentary linking these decisions to other key case law and Commission documents, this unique and impressive book provides the student and practitioner of EU competition law with an extremely clear and useful introduction to these leading decisions." Dr Kathryn McMahon, Associate Professor, School of Law, University of Warwick "The Guide is an invaluable tool for both students and practitioners. It provides a compact overview on the fundamental cases and highlights the essential problems in a clear and sharp analysis." Dr Christoph Voelk, Antitrust Practice Group, McDermott, Will & Emery LLP, Brussels "This edition will be especially valuable to competition law specialists abroad who are interested in the jurisprudence and policy of the European Union and its member states. Familiarity with the European regime is essential for proficiency in competition law today, and this volume provides an excellent foundation." William E Kovacic, Global Competition Professor of Law and Policy, George Washington University Law School, Former Chairman, US Federal Trade Commission "A perfect reference for students of competition law, giving them a kick start when searching for EU case law on a specific subject." Magnus Strand, University of Uppsala, Sweden

This book is for anyone who wants to have a go at creating commercially successfully games for Android and iOS. You don ' t need game development or programming experience.

Focus On Decisions That Impact Readers ' Skill Development In What Do I Teach Readers Tomorrow? Fiction, Gravity Goldberg and Renee Houser provide a daily protocol for deciding what to teach next. The simple secret? Focus on the thinking involved in what students write and say. Tools include: Tips for what to look and listen for when students write about and discuss fiction More than 30 lessons writing about reading, organizing thinking, and more Reproducible Clipboard Notes for quick decision-making Online video clips of Renee and Gravity teaching and " thin slicing "
