Double French Door Ice Maker Water line Frozen Samsung Ice Maker Troubleshooting

If the ice maker appears to not be making any or enough ice, low water pressure or a faulty water filter may be to blame. When the ice maker makes small, cloudy, or clumped ice, it could be something as simple as a dirty water filter, low water pressure, or high mineral deposits in your water. In the event of a frozen ice bucket, some troubleshooting may be needed, and service may be required.

message us to request service. If you don't see the wire, then it's possible the ice is from a spill in the ice bucket. Continue to use the refrigerator, and if another block of ice occurs, service is required.

Refrigerator Ice Maker Issues (All Models) - Samsung Community

Samsung recommends first trying to reset your ice maker, as this might propel the appliance into action to defrost itself. When resetting doesn't work, the next step is to empty your freezer of its contents and to gather a bunch of towels. Very carefully, use a hairdryer to melt the ice enough so that your appliance can resume normal function.
