Schema Therapy Questionnaire

Schema therapy (ST) is an integrative approach that brings together elements from cognitive behavioral therapy, attachment and object relations theories, and Gestalt and experiential therapies. It was introduced by Jeff Young in 1990 and has been developed and refined since then. Schema therapy is considered an effective way of conceptualizing and treating personality disorders. Rafaeli ...

Young Schema Questionnaire Online. - Dr Alice Boyes

The order in which schemas are clustered on the questionnaire corresponds to their listing on the Schema Grid. Scores for each schema are found by counting the total number of items within each schema rated either 5 or 6. This number is then entered and graphed in the corresponding row on the Schema Grid.
