The Changing Face Of Labour

One significant driver of the tight labour market is that the number of workers is falling. If we look at fertility and population statistics, as a nation we're producing fewer people. Ever since the post-war Baby Boom, each generation has been in decline.

The Changing Face of the UK Labour Market

For years, Labour's left wing in parliament has been represented by only a small handful of figures. Dennis Skinner's removal from the national executive committee last year symbolised the divorce between Labour in parliament and the party's left. But over its five years in opposition, the political mood within the party has shifted.
