6. Paradoxes of the dark side The negative aspect of the dark side rises to the surface when we use it selfishly to only fulfill our own needs and wants. We can use our dark side to serve God’s purposes in our life rather than only our unmet needs. Leaders need to be students of themselves and understand the areas of their dark side.

Barney Live-Action Film Explores the Dark Side of the Series’ Most Famous Song Black Panther and Get Out’s Daniel Kaluuya is producing a live-action Barney flick, which may give a tragic spin to the series' most famous song. By Samuel Gelman Oct 20, 2020

~~Barney Live-Action Film Explores the Dark Side of the Series’ Most Famous Song~~

~~Samuel Pepys is popularly known as the founder of the modern navy, a member of the Royal Society and most of all, as a unique and frank diarist. Less well known is the fact that he was a serial sexual offender by modern standards; a voyeur. a proper and a rapist.Set against the London society of Charles IIs restoration, and extensively using Pepys own words, this book concerns his numerous extramarital affairs, often using his professional status and position of influence to advance the careers of his subordinates, in return for the sexual favors of their wives.With his own very frank descriptions, translated from the strange mix of languages and the seventeenth century shorthand he used to camouflage the content, the reader witnesses in often very graphic detail how Pepys set about achieving his lascivious objectives on occasion resorting to physical force where persuasion or bribery failed. Whether she be wife, daughter, mother or humble maidservant, no woman was safe from his rapacious sexual appetite.This book shows the reader a little known, dark and sometimes very disturbing aspect of Samuel Pepys character, one which even in his own day, he would not have wanted to be publicly aired.~~

~~Integrity is often discussed, challenged, occasionally vindicated; but what does it look like? Sometimes the best highlight of the diamond is the velvet against which it is cast. Likewise, narrative artistry subtly depicts flaws in character and flaws in leadership. When some ancients moved from insignificant provincials to emperors in a generation, why did those of the United Monarchy of Israel only achieved the "mini-empire" (Kitchen) and varying degrees of regional influence? Dr. Vreeland maintains that how leaders respond to God's rules of engagement and how they treat people make the difference between greatness and mediocrity. Lest this book be confused with a commentary, it must be said that it can be read ad loc. However, each section is designed to be a stand-alone essay that might be read ad seriatim. Throughout, Dr. Vreeland endeavors to be personable but professional, playful but pointed, impassioned at times but always thought provoking. Dr. Vreeland received his Ph.D. from Trinity International University in Theological Studies (Old Testament) in 1994. After raising support as a missionary he served for four years at the Nairobi International School of Theology. He was then invited to be part of the faculty of Northwest Baptist Seminary. He has concluded six years there (July '07) as Associate Professor of Semitic Languages and Biblical Literature. He teaches Hebrew and English Bible and other special topics. So far as the church in America is concerned, his love is serious biblical study as related to integrity and leadership - hence this work on First Samuel and its sequel in Second Samuel. Dr. Vreeland has been married for 26 years to the love of his life, Donna - who is the finest English Bible scholar on the planet and to whom this volume is gratefully dedicated. They have 3 grown children.~~

~~The Christian world has been rocked by the number of prominent leaders, in both church and parachurch organizations, who have been compromised by moral, ethical, and theological failures. This pace-setting volume addresses this alarming problem and offers Christian leaders valuable guidance in dealing with the inherent risks of their work. Using biblical and current examples, the authors describe the characteristics of five types of leaders and the problems that are most likely to develop if their particular dysfunctions develop unrestrained. McIntosh and Rima offer a series of steps for leaders to consider so they can take control of their dark side and learn to harness its creative powers. This edition includes a new introduction, updated information throughout, a self-assessment tool, and other additional material. Includes endorsements from John Maxwell, Leighton Ford, Leith Anderson, and Rob Angel.~~

~~A small book of images and essays from artist Sam Ostermann.~~

~~How the book of Samuel offers a timeless meditation on the dilemmas of statecraft The book of Samuel is universally acknowledged as one of the supreme achievements of biblical literature. Yet the book’s anonymous author was more than an inspired storyteller. The author was also an uncannily astute observer of political life and the moral compromises and contradictions that the struggle for power inevitably entails. The Beginning of Politics mines the story of Israel’s first two kings to unearth a natural history of power, providing a forceful new reading of what is arguably the first and greatest work of Western political thought. Through stories such as Saul’s madness, David’s murder of Uriah, the rape of Tamar, and the rebellion of Absalom, the author of Samuel deepens our understanding not only of the necessity of sovereign rule but also of its costs—to the people it is intended to protect and to those who wield it. Moshe Halbertal and Stephen Holmes show how these beautifully crafted narratives cut to the core of politics, offering a timely meditation on the dark side of sovereign power and the enduring dilemmas of statecraft.~~

~~This book highlights the fact that leaders do indeed affect the performance of organizations or the well-being of society for better or worse--to cast either a shadow or light by the exercise of their leadership. Modern psychology with its theories of human behavior, which does not acknowledge the existence of the spiritual realm, cannot explain the carnage and evil often associated with the dark side of leadership. This book focuses on the dark side of leadership in a multidimensional manner and provides a psychospiritual approach toward understanding personality disorders and leader derailment. It highlights an area that has not been exclusively studied by leadership researchers to date--the influence of spiritual forces in personality disorders, which lead to leadership failure and derailment. This book calls for a more interdisciplinary approach and holistic understanding of the dark side of leadership, inseparably relating body, soul, and spirit as they function individually and relationally. It highlights the fact that the restoration of personality will require sustained dialogue between theologians and the medical and psychological professions. This book provides solid information and new insights for anyone seeking to understand the dark side of leadership.~~

~~After completing this research for several years. Writing this book was very hard work, questions and discussions with ministers, priests and religious leaders, but it helped me organize my thoughts. Although some were experts who forced me to force my mind, but from what I had expected. Seeking every day to learn about what is written. Because when you get really prepared to look at reality, wherever it takes you, then at some point, you realize that all those dealing with a total slave, and the more research and educate yourself, the more you will understand. You will begin to see lies everywhere. You have to know the truth, seek truth and the truth will set you free.~~

~~Devils, ghosts, poltergeists, werewolves, and witches are all covered in this book about the "dark side" of supernatural beliefs in early modern Europe, tapping period literature, folklore, art, and scholarly writings in its investigation. • Illustrations from rare books on witchcraft and demonology • An annotated bibliography of primary and secondary sources • Appendices address early modern supernatural art and artists who depicted the dark side as well as important historical individuals~~

~~The many con men, gangsters, and drug lords portrayed in popular culture are examples of the dark side of the American dream. Viewers are fascinated by these twisted versions of heroic American archetypes, like the self-made man and the entrepreneur. Applying the critical skills he developed as a Shakespeare scholar, Paul A. Cantor finds new depth in familiar landmarks of popular culture. He invokes Shakespearean models to show that the concept of the tragic hero can help us understand why we are both repelled by and drawn to figures such as Vito and Michael Corleone or Walter White. Beginning with Huckleberry Finn and ending with The Walking Dead, Cantor also uncovers the link between the American dream and frontier life. In imaginative variants of a Wild West setting, popular culture has served up disturbing -- and yet strangely compelling -- images of what happens when people move beyond the borders of law and order. Cantor demonstrates that, at its best, popular culture raises thoughtful questions about the validity and viability of the American dream, thus deepening our understanding of America itself.~~
