Accessible design starts before the design process and--surprisingly--usually runs counter to most contemporary building designs. The benevolent humanity embodied in these design suggestions is a delightful trend to see in building design and construction. A necessary addition to gerontological and construction collections.

Project Management for Construction: The Design and ...  
From the pedestrian plaza in Times Square to the Far Rockaway Library, the Department of Design and Construction is building for you. As the City's primary capital construction project manager, we build many of the civic facilities New Yorkers use every day.

## About Us - Department of Design and Construction

We design, renovate and build the structures that New York City needs to serve the public. We build libraries, museums, police precincts, senior centers, and beyond. Our portfolio of smaller-scale work promotes safety for all, from the installation of wheelchair-accessible pedestrian ramps, to the upgrade of fire hydrants
