Storyline Columbus' 4th voyage has been a total failure: he has not found the westward passage, he has no gold to show, he has lost men and ships and his efforts to build a colony have fallen through. The monarchs of Spain are not going to restore the rights and privileges which were taken away from Columbus after the first voyage.

The author's Columbus—who engages in swashbuckling deeds of derring-do as he explores the Caribbean and Central America in his fourth and final voyage (1502–1504)—is a guy's guy. Spurning views of Columbus as a harbinger of genocide, Dugard ( Into Africa , etc.) senses virile, visionary boldness, a man "fuelled by focus and challenge."

The Year is 1500. Christopher Columbus, stripped of his title Admiral of the Ocean Seas, waits in chains in a Caribbean prison built under his orders, looking out at the colony that he founded, nurtured, and ruled for eight years. Less than a decade after discovering the New World, he has fallen into disgrace, accused by the royal court of being a liar, a secret Jew, and a foreigner who sought to steal the riches of the New World for himself. The tall, freckled explorer with the aquiline nose, whose flaming red hair long ago turned gray, passes his days in prayer and rumination, trying to ignore the waterfront gallows that are all too visible from his cell. And he plots for one great escape, one last voyage to the ends of the earth, one final chance to prove himself. What follows is one of history's most epic -- and forgotten -- adventures. Columbus himself would later claim that his fourth voyage was his greatest. It was without doubt his most treacherous. Of the four ships he led into the unknown, none returned. Columbus would face the worst storms a European explorer had ever encountered. He would battle to survive amid mutiny, war, and a shipwreck that left him stranded on a desert isle for almost a year. On his tail were his enemies, sent from Europe to track him down. In front of him: the unknown. Martin Dugard's thrilling account of this final voyage brings Columbus to life as never before--adventurer, businessman, father, lover, tyrant, and hero.

No gamble in history has been more momentous than the landfall of Columbus's ship the Santa Maria in the Americas in 1492 - an event that paved the way for the conquest of a 'New World'. The accounts collected here provide a vivid narrative of his voyages throughout the Caribbean and finally to the mainland of Central America, although he still believed he had reached Asia. Columbus himself is revealed as a fascinating and contradictory figure, fluctuating from awed enthusiasm to paranoia and eccentric geographical speculation. Prey to petty quarrels with his officers, his pious desire to bring Christian civilization to 'savages' matched by his rapacity for gold, Columbus was nonetheless an explorer and seaman of staggering vision and achievement.

From prehistoric times to the present, the Ocean has been used as a highway for trade, a source of food and resources, and a space for recreation and military conquest, as well as an inspiration for religion, culture, and the arts. The Ocean Reader charts humans' relationship to the Ocean, which has often been seen as a changeless space without a history. It collects familiar, forgotten, and previously unpublished texts from all corners of the world. Spanning antiquity to the present, the volume's selections cover myriad topics including the slave trade, explorers from China and the Middle East, shipwrecks and castaways, Caribbean and Somali pirates, battles and U-boats, narratives of the Ocean's origins, and the devastating effects of climate change. Containing gems of maritime writing ranging from myth, memoir, poetry, and scientific research to journalism, song lyrics, and scholarly writing, The Ocean Reader is the essential guide for all those wanting to understand the complex and long history of the Ocean that covers over 70 percent of the planet.

Documents a 2002 underwater expedition during which a pair of German journalists and amateur divers analyzed the oldest shipwreck ever found in the western hemisphere, a ship believed to be one used by Christopher Columbus on a western-route voyage to the New World. Reprint.

Chronicles the voyages of Columbus after his famous 1492 landfall in the Americas, explaining how they reflected Columbus's uncanny navigational skills before taking an extreme toll on his health and personal circumstances.

This impeccably researched and "adventure-packed" (The Washington Post) account of the obsessive quest by Christopher Columbus's son to create the greatest library in the world is "the stuff of Hollywood blockbusters" (NPR) and offers a vivid picture of Europe on the verge of becoming modern. At the peak of the Age of Exploration, Hernando Colón sailed with his father Christopher Columbus on his final voyage to the New World, a journey that ended in disaster, bloody mutiny, and shipwreck. After Columbus's death in 1506, eighteen-year-old Hernando sought to continue—and surpass—his father's campaign to explore the boundaries of the known world by building a library that would collect everything ever printed: a vast holding organized by summaries and catalogues; really, the first ever database for the exploding diversity of written matter as the printing press proliferated across Europe. Hernando traveled extensively and obsessively amassed his collection based on the groundbreaking conviction that a library of universal knowledge should include "all books, in all languages and on all subjects," even material often dismissed: ballads, erotica, news pamphlets, almanacs, popular images, romances, fables. The loss of part of his collection to another maritime disaster in 1522, set off the final scramble to complete this sublime project, a race against time to realize a vision of near-impossible perfection. "Magnificent...a thrill on almost every page" (The New York Times Book Review), The Catalogue of Shipwrecked Books is a window into sixteenth-century Europe's information revolution, and a reflection of the passion and intrigues that lie beneath our own insatiable desires to bring order to the world today.

An assessment of the character and motivations of Christopher Columbus reveals the passionate religious beliefs that motivated his famous voyages, and claims how he sought gold to finance a new crusade to restore Jerusalem to Christian control.

"The book is an idea that has finally found its time." --Publisher's Weekly "I think your book on Christopher Columbus is important. I'm more grateful for that book than any other book I have read in a couple of years." --Kurt Vonnegut
