I wanted to read the ending of this story, but I'm glad it wasn't rushed because Traitor was a surprising yet exciting installation in

That is books in a series that are more about setting up the final book while tying up certain plot points of the series. It did end surprisingly short considering I first thought this was the final of the series and it ended at the 87% mark with an excellent as it turns out short story about the person who decides to tag along with our dragonrider in the end.
