The legionnaires were amongst the finest troops in the British Army. The 1st, 2nd, 4th, 5th, 6th and 7th Line served in the Peninsular (Haythornthwaite, 1995). The 5th Line was nicknamed "the Fighting Battalion" by the British. Each battalion included a half-company of sharpshooters in addition to the light company.

*British Orders of Battle During the Peninsular War ...*

Wellington's Peninsula regiments. Vol. 1, The Irish. [Mike Chappell] -- "The famously hard-fighting Irish regiments of the British Army distinguished themselves not only in many of the main Peninsular battles, but also in several dramatic, but lesser known actions.

The forces which Wellington led in Portugal and Spain and up into southern France between 1808 and 1814 achieved a consistent record of victory perhaps unmatched in the history of the British Army. Some 40 per cent of this volunteer army were Irishmen – a remarkable figure, given the recent unrest and bloodshed in Ireland. This book details the record, and illustrates the uniforms and equipment, of the two cavalry and three infantry units boasting formal Irish identity: the 4th (Royal Irish) Dragoon Guards, 18th Hussars, 27th (Enniskillen), 87th (Prince of Wales's Own Irish), and 88th (Connaught Rangers) Regiments of Foot.

This highly detailed study provides a clear account of how the British Army was organised, who commanded it, and how it functioned in the field during the Peninsular War. Focusing principally on infantry, cavalry and artillery, including foreign units in British pay, it provides a detailed and comprehensive order of battle. Doctrine, training, tactics and equipment are discussed in depth, and medical services and engineers are also covered. Concise biographical details of key commanders, over 60 unit tree diagrams, organisational tables, plus numerous illustrations make this an essential reference work for students of this period.

The forces which Wellington led in Portugal and Spain and up into southern France during the Peninsular War (1808-1814) achieved a record of victory perhaps unmatched in the history of the British Army. Among his infantry the regiments of the Light Division were self-consciously an élite, trained to fight with initiative and independence on the exposed edges of the marching army. This book explains their evolution and tactics, details the campaigns in which they fought and illustrates the uniforms and equipment of the Light Infantry regiments: the 43rd (Monmouthshire), 52nd (Oxfordshire), 51st (2nd Yorkshire), 68th (Durham) and 85th (Bucks Volunteers).

Though less celebrated than the infantry and cavalry, Napoleon's 'specialist' troops – artillery, engineers and supporting services – were indispensable elements without which no army could have operated, and frequently assumed greater significance than the line regiments. Indeed, having suffered least from the emigration of Royalist officers, the artillery was the best element of the early Republican armies, the nucleus of the old Royal artillery serving with distinction in the early campaigns such as Valmy. The organisation and uniform of Napoleon's specialist troops are here examined by Philip Haythornwaite in an engaging volume complemented by a wealth of illustrations including eight full page colour plates by Bryan Fosten.

Wellington considered the British cavalry to be technically inferior to the French, although paradoxically he also said that one British squadron would be a match for two of the enemy. His main concern was that although the British cavalry lacked neither courage nor dash, they lacked discipline, in that they invariably failed to rally and re-form once they had charged home. At Waterloo, although the cavalry generally performed superbly well, the endemic faults which Wellington had already identified were repeated more than once, resulting in the decimation of several fine regiments. Bryan Fosten explores the history, organisation and uniforms of Wellington's Heavy Cavalry.

Few men from the 71st Highland Light Infantry who sailed from Cork with Wellington to Portugal in 1808 returned to the Irish port six years later. The author of *Vicissitudes in the Life of a Scottish Soldier* was one of the survivors and claims only four other men from his company came through the entire six years with him. ??As one of Wellington's elite Light Infantry units the 71st were in the fore of the fighting in some of the hardest fought battles of the Peninsular War. The book was controversial on its release in 1827 for its unvarnished and unsentimental account of the grim war against the French in Spain, the Netherlands, Portugal and France itself. A cynic with a highly developed sense of humour, the author was not afraid to criticise his superiors, be they thieving sergeants or officers who were far from gentlemen. ??Editor Paul Cowan draws on little known diaries and other accounts written by the author's contemporaries to corroborate and expand on this frank but all too long neglected first-hand picture of the war in the Peninsula as it was really fought.

The assault was failing. Wellington's men had stormed the walls of the great frontier fortress of Badajoz only to be beaten back with terrible losses. Then on the keep of the old castle the French flag was torn down and a British officer's red jacket was hauled up the flagpole. It was the signal the British were inside Badajoz! This was one of the most famous incidents during the Peninsular War and marked not only the turning point in the capture of Badajoz but of the entire conflict. The jacket belonged to Lieutenant James MacPherson of the 45th (Nottinghamshire) Regiment. The 45th had landed with Wellington at Mondego Bay in 1808 and fought with him throughout the entire Peninsular War gaining more battle honours than any other line regiment. Wellington's Redjackets, The 45th (Nottinghamshire) Regiment on Campaign in South America and the Peninsular War is one of the most detailed unit histories ever published of a regiment during the Napoleonic era. As the first, and only, study of this regiment, Wellington's Redjackets will undoubtedly be an essential purchase for those interested in Napoleonic warfare.

Like the authors previous book, *The British Army Against Napoleon, Charging Against Wellington* draws heavily on primary sources, manuals, memoirs, and regimental histories to bring to life the officers and men of the regiments that fought. The book is divided into three sections. The first contains biographies of 80 generals who led the French cavalry, focusing on the time they served in the Peninsula and its impact on their careers. Two went on to become Marshals of France and many were promoted and given greater responsibilities. For others, their careers were damaged while serving in Spain or Portugal nine were relieved from their commands. Nearly half of the generals were killed, wounded, captured, or died from their wounds in Spain: a high price for glory. The second section looks at the ever-changing organization of the cavalry, where the various regiments and brigades were located and who commanded them. This is not as easy a task as it may appear, because a considerable amount of the cavalry was provisional regiments, consisting of squadrons drawn from other regiments. By April 1814, the Peninsula cavalry was down to 4,000 men a shadow of the force that invaded six years before. *Charging Against Wellington* chronicles all the changes, showing which units left, when they left, and how their departure impacted the army. The third section looks at the service record of the 70+ French cavalry regiments that fought in Spain and Portugal. There is a table for each regiment that tracks the regiments colonels, composition, organization, strength, and casualties while in the Peninsula, and when its various squadrons arrived and departed.
